

## **Transfer of Credit, Prior Learning, and Articulation Agreements Policy**

*Effective Date: July 1, 2022*

### Contents

- I. Purpose
- II. Statement of Policy
- III. Procedures
- IV. Definitions

#### **I. Purpose**

The Mid-Atlantic Region Commission on Higher Education (MARCHE), doing business as the Middle States Commission on Higher Education (MSCHE or the Commission) seeks to ensure that institutions are responsible for consistency, fairness, and transparency in the evaluation and acceptance of credit earned at another institution or credits awarded through the assessment of experiential learning, prior non-academic learning (including military service), competency-based education, direct assessment, and other alternative learning approaches. The purpose of this policy is to outline the Commission's expectations for member institutions related to transfer of credit. See accompanying documents *Transfer of Credit, Prior Learning, and Articulation Agreements Procedures* and *Transfer of Credit, Prior Learning, and Articulation Agreements Guidelines* for more information. See also the Commission's *Credit Hour Policy and Procedures*.

#### **II. Statement of Policy**

The Commission's expectations for transfer and award of credit between institutions apply to institutions regardless of geographic location in the United States, type of institution or setting, and/or modality of the instruction. The Commission shall provide flexibility to institutions to determine its own policy and procedures with regard to transfer of credit, so long as the institution strives for appropriate balance among consistency, fairness, flexibility, good educational practice, and academic program integrity. The institution's policies and procedures shall address the decision-making process on the acceptance or denial of credit for learning experiences and shall seek to minimize the loss of credit for students wherever possible. The Commission shall require that member institutions develop transfer of credit policies and/or procedures that are clearly articulated, consistent, and transparent. Consistency in transfer of credit decisions directly benefits students and helps to reduce systemic inequities in higher education. The institution may elect to enter into articulation agreements or memoranda of understanding (MOU) with other institutions or programs to provide transparency to students, assist the process of transfer, and minimize the loss of credits for students.

#### **III. Procedures**

The Commission staff will develop procedures as are necessary to ensure the consistent implementation of policies. See the Commission's *Transfer of Credit, Prior Learning, and Articulation Agreements Procedures*.

#### IV. Definitions

The following definitions are used in this policy and/or procedures:

- A. Articulation agreement.** An agreement between or among institutions of higher education that specifies the acceptability of courses in transfer toward meeting specific degree or program requirements.
  
- B. Clock hour:** (1) A period of time consisting of (i) A 50- to 60-minute class, lecture, or recitation in a 60-minute period; (ii) A 50- to 60-minute faculty-supervised laboratory, shop training, or internship in a 60-minute period; (iii) Sixty minutes of preparation in a correspondence course; or (iv) In distance education, 50 to 60 minutes in a 60-minute period of attendance in (A) A synchronous or asynchronous class, lecture, or recitation where there is opportunity for direct interaction between the instructor and students; or (B) An asynchronous learning activity involving academic engagement in which the student interacts with technology that can monitor and document the amount of time that the student participates in the activity. (federal definition in 34 CFR § 600.2).
  
- C. Competency Based Education (CBE).** A program that organizes content according to what a student knows and can do, often referred to as a “competency.” CBE programs also generally have very clear claims for student learning, stress what students can do with the knowledge and skills they acquire and have assessments that provide measurable evidence of competency. Student progress is determined by mastery of each competency. Because CBE focuses on whether students have mastered these competencies, there is a focus on learning outcomes rather than time spent in a classroom. Direct assessment is a subset of competency-based education (CBE).
  
- D. Credit for prior learning.** Academic credit granted for demonstrated college-level equivalencies gained through learning experiences outside of the college classroom, using one of the well-established methods for assessing extra-institutional learning, including third-party validation of formal training or individualized assessment, such as portfolios. (definition from American Council on Education and Center for Education Attainment & Innovation).
  
- E. Credit hour.** An amount of student work defined by an institution, as approved by the institution's accrediting agency or State approval agency, that is consistent with commonly accepted practice in postsecondary education and that reasonably approximates not less than (i) One hour of classroom or direct faculty instruction and a minimum of two hours of out-of-class student work each week for approximately fifteen weeks for one semester or trimester hour of credit, or ten to twelve weeks for

one quarter hour of credit, or the equivalent amount of work over a different period of time; or (ii) At least an equivalent amount of work as required in (i) of this definition for other academic activities as established by the institution, including laboratory work, internships, practica, studio work, and other academic work leading to the award of credit hours; and permits an institution, in determining the amount of work associated with a credit hour, to take into account a variety of delivery methods, measurements of student work, academic calendars, disciplines, and degree levels. (federal definition in 34 CFR § 600.2)

- F. Direct assessment.** Alternative means to measure student learning in lieu of clock or credit hours.
- G. Direct assessment program.** An instructional program that, in lieu of credit hours or clock hours as a measure of student learning, utilizes direct assessment of student learning, or recognizes the direct assessment of student learning by others and meets the conditions of 34 CFR § 668.10(a)(2). Direct assessment of student learning means a measure of a student's knowledge, skills, and abilities to provide evidence of the student's proficiency in the relevant subject area. Direct assessment is a subset of competency-based education (CBE).
- H. Distance Education.** Education that uses one or more of the following technologies to deliver instruction to students who are separated from the instructor or instructors and to support regular and substantive interaction between students and the instructor or instructors, either synchronously or asynchronously: (i) the internet; (ii) one-way or two-way transmissions through open broadcast, closed circuit, cable, microwave, broadband lines, fiber optics, satellite, or wireless communications devices; (iii) audio conference; or (iv) Other media used in a course in conjunction with any of the technologies listed above. Please see the complete federal definition of distance education, including substantive interaction in the Substantive Change Guidelines. (federal definition in 34 CFR § 600.2)
- I. Educational program.** A legally authorized postsecondary program of organized instruction or study that: (i) Leads to an academic, professional, or vocational degree, or certificate, or other recognized educational credential, or is a comprehensive transition and postsecondary program, as described in 34 CFR part 668, subpart O; and (ii) May, in lieu of credit hours or clock hours as a measure of student learning, utilize direct assessment of student learning, or recognize the direct assessment of student learning by others, if such assessment is consistent with the accreditation of the institution or program utilizing the results of the assessment and with the provisions of § 668.10. (federal definition in 34 CFR § 600.2)
- J. Prior learning assessment.** The process for recognizing and awarding credit for college-level learning acquired outside of the classroom. There are several ways in which students can demonstrate this learning and earn credit, including but not limited to, standardized examination, program challenge exam, portfolio-based or other

individualized assessment, evaluation of non-college programs, etc. (definition adapted from the Center for Law and Social Policy).

Version: 2022-07-01, EFFECTIVE

Effective Date: July 1, 2022

Initial Approval: August 18, 2012

Approved: Approved by the Commission (June 23, 2022)

Revisions: July 1, 2022

Federal Regulations: 34 CFR Part §602 The Secretary's Recognition of Accrediting Agencies, §602.24(e)(1-2) Transfer of credit policies; §602.23 Operating procedures all agencies must have; 34 CFR Part §600.2 Definitions; 34 CFR §668.10 Direct assessment programs; 34 CFR §668.43(a)(11) Institutional information.
